Student Employment Verification Fall 2022 Information

FAQs

1. What is Docusign?

Docusign allows both the student and their supervisor to provide signatures electronically (e-sign) on the Student Employment Verification (SEV) form without having to print the paper version to sign. Docusign also electronically routes the form to the Office of the Registrar for expedited processing once the student and employer have provided their “e-signature”.

2. How do I complete the Student Employment Verification (SEV) form with Docusign?

Students use their NetID and password after clicking on the [Student Employment Verification form link](#).

3. What information do I need to provide on the form?

Upon logging in, a student’s name and UIN will appear prepopulated on the form since the student is authenticating themselves with their NetID and password.

The student will be prompted to enter the following Employer information:

- Supervisor name – Provide name of person who is responsible for your work and/or schedule.
- Supervisor email – Provide supervisor’s email where they can receive the request to verify student employment information by providing their signature electronically (e-sign).
- Place of Employment – Provide name of business/place of employment

*Students are encouraged to discuss this with their supervisor in advance to ensure the supervisor is aware of the email and they obtain the proper email address from their supervisor.

Supervisors, if they approve, will be prompted to enter a contact phone number and e-sign the document. Once completed, the document is routed to the Office of the Registrar for processing.

4. Can a supervisor deny my SEV form?

Yes, a supervisor is responsible for verifying the work schedule criteria is being met by the student. A supervisor can decline and not provide their verification signature if the student does not meet the criteria required. As such, the student would not be eligible for early registration consideration.

5. Can a paper version of the SEV form be printed and submitted instead of using the electronic signature feature in Docusign?

Yes, once you have logged in and accessed the Student Employment Verification form, Docusign provides an option to print the PDF form in paper format INSTEAD of e-signing it. If printed forms are used, students and/or employers will need to provide their handwritten signature and the submission deadline is the same regardless of submission type.

6. How do I know if my form has been signed by my supervisor?

Students and supervisors using Docusign will receive an email confirmation when the form has been completed by the supervisor and routed to the Office of the Registrar for processing. Students can also log back in and check the status of their submitted form.

Students are still responsible for ensuring their form gets submitted by the deadline, whether that is electronically using Docusign or via paper. Students should continue to communicate and/or remind their supervisor until they get the confirmation email that it has been completed.

7. Who can I contact for more information about SEV forms?

Students and supervisors can send questions to recordsadmin@tamu.edu.
